## UEG Rising Star 2021 - Giovanni Marchegiani

EDS is honored to announce that the EDS member Giovanni Marchegiani has received one of the 2021 UEG Rising Star Awards! The UEG prize is given every year to the most promising young scientists. It offers these young researchers a permanent platform to further develop their professional careers. The awardees are jointly selected by the National Society's Committee and the Scientific Committee based on a track record of international quality research and the development of scientific independence. Congratulations to EDS member Giovanni Marchegiani for this great success!

The 14th EDS Postgraduate Course will be postponed to 2022 due to the current COVID-19 pandemic, as it will be a live event. An exact date will be announced as soon as possible in the EDS News and on the EDS website (<http://www.edsurgery.org/>).

Accordingly, the EDS Council plans to hold the 15th EDS Postgraduate Course in 2023 in Tbilisi, Georgia. The event will be hosted by Vano Abiatari.
